# Washer Extractor Controller

Touch Screen controller for all brands of Washer Extractors

Applying the TEXCONTROL Washer Extractor control system empowers you to monitor and increase the production efficiency of your Washer Extractor. The 5.7 or 8.4 inch touch screen makes it easy to operate and shows an instant clear overview screen with alarm or message text, recipe name and process information.

## Washer Control Features:

- full color touch screen
- flexible for all types of Washer Extractors: open pocket, multiple pocket, frontal or barrier machines
- frequency inverter drive
- single motor application
- easy modification and adjustment of parameters
- up to 99 different programs
- detergent dosing programming
- visual representation of in- and outputs to facilitate world wide component support
- internet connection for remote support
- can be integrated in TEXVIEW application
- competitive price

## Integrated with TEXVIEW

The TEXCONTROL Sheet Folder control is prepared to be connected to the TEXCONTROL Management Information System TEXVIEW. This will give managers, engineers and operators detailed information about production figures, rejects, downtime, errors, warnings and other statistic data.

## Technical Specifications

- High Screen resolution and a choice of touch screens: 5,7" or 8,4" inch.
- Connection from PLC to inputs/outputs with standard Ethernet CAT5E cable.
- Software update by Ethernet or Flash Card.
- Full backup and restore capability.
- Ethernet connection enables the support over the internet as well internally in the laundry as remotely from the Texfinity offices.
- Automatic parameter backup on internal flashcard. No data loss in case of an empty battery.
- STN or TFT touch screen with 32.768 colors
- Perfect brightness to improve readability in all circumstances
- Long life back light (min. 75.000 hours)

## Program Specifications

The Washer Extractor control has following features which improve the quality of the system and increase productivity and efficiency:

- User friendly controller, which visualizes the adjustment of the washing parameters in a self explanatory way.
- Up to 99 programs improve the operation of the washer extractor by always selecting the right program for the right customer
- Easy setting and adjustment of dosing levels
- Counters per customer give access to production data.
- Frequency inverter implementation, reduces the electricity bill and decreases stress on mechanical parts, which increases the lifetime of the machine.
- All types of washer extractors: barrier (hygienic), non barrier, open pocket and multi pocket machines
- Integrating with folders and ironer allows for central control of a complete ironing line.
- iPad or tablet support via the overview system, to monitor your systems remotely.
- alarm and error lists on screen.
- provided with English, French, Spanish or Dutch user manual.
